The Berlin Public Transport Company (BVG) is responsible for operating public transportation within Berlin, Germany. The BVG operates a vast network of buses, trains, trams, and ferries, making it one of the largest public transport companies in the world.

History of the BVG

The BVG was founded in 1929 as a merger of several smaller public transport companies in Berlin. In the early years of its operation, the BVG focused on expanding its network of bus and train lines. After World War II, the BVG played a major role in rebuilding the city's public transportation system.

In the 1960s, the BVG introduced the first tram lines in Berlin. In the 1970s, the BVG began operating the city's first subway lines.

Fares

The BVG offers a variety of ticket options, including single tickets, day passes, and monthly passes. The cost of a ticket depends on the distance traveled and the type of ticket purchased.

Single tickets can be purchased at ticket machines or from bus drivers. Day passes can be purchased at ticket machines or at customer service centers.

Routes

The BVG operates a network of over 150 bus lines, 10 subway lines, 22 tram lines, and 6 ferry lines. The BVG's routes cover all of Berlin, including the city center, the suburbs, and the surrounding countryside.

The BVG's website provides a detailed map of the BVG's network.

Tips for Using the BVG

Here are a few tips for using the BVG:

- Purchase a ticket before boarding a bus or train.
- Validate your ticket before traveling.
- Be aware of the different types of tickets available.
- Plan your route in advance using the BVG's website or app.
- Be respectful of other passengers.

The BVG is a vital part of Berlin's public transportation system. The BVG provides a safe, reliable, and affordable way to get around the city.

Whether you are a tourist or a resident, the BVG is a great way to explore Berlin.
