

# Travels of the Most Reluctant Draftee: The Reluctant

In the annals of military history, there are few stories as humorous or heartwarming as that of the most reluctant draftee. This is the story of a young man who was drafted into the military against his will, but who eventually found his place and made the most of his experience.

The reluctant draftee was born into a family of pacifists. His parents had taught him to believe that war was wrong, and he had no desire to serve in the military. However, when he was drafted, he knew that he had no choice but to go.

The reluctant draftee reported for basic training with a heavy heart. He hated the military and everything it stood for. He refused to wear his uniform properly, and he constantly challenged his superiors. However, his

fellow soldiers saw something in him, and they eventually took him under their wing.

The reluctant draftee began to learn about the military and the people who served in it. He realized that not all soldiers were bloodthirsty killers. In fact, many of them were just like him: young men who had been drafted against their will.

The reluctant draftee also began to learn about himself. He discovered that he was stronger and more resilient than he thought. He also learned that he had a sense of humor, even in the face of adversity.

The reluctant draftee eventually deployed to Iraq. He was scared and uncertain, but he also knew that he had to do his duty. He served his country with honor and distinction, and he returned home a changed man.

The reluctant draftee is a reminder that even in the most difficult circumstances, we can find hope and humor. He is also a reminder that we should never give up on our beliefs, even when they are unpopular.
